Academic Appointments

August 2022 - Present **Assistant Professor in Business Information Technology, Virginia Tech,**

Education

2016-2022 **Ph.D. in Information Systems, Boston University,**

2014-2016 **M.S. in Business and Technology Management, KAIST,**

2009-2014 **B.A. in Business Administration, Sungkyunkwan University,**

Research Interests

Technology-mediated collective behavior; information diffusion and exposure; human–AI collaboration; social networks and organizational performance; platform governance and online communities.

Keywords Human–AI collaboration; information diffusion; collective intelligence; lab experiments; field experiments; econometrics; network analysis

Publications

Bernstein, E., Shore, J., and Jang, A.J. **Network centralization and collective adaptability to a shifting environment.** *Organization Science*.

Jang, A.J. and Venkatesh, V.

Information Sharing on Social Media: Introducing the Role of Exposure Frequency and Its Emergent Effects *MIS Quarterly Forthcoming*

Jelson, A., Kim, Y., Jang, A.J., Manesh, D., Dunlap, D., and Lee, S.

An Empirical Study of How Students Use ChatGPT for Essay Writing *CHI*

Manuscripts Under Review / Revision

The Effect of Social Movements: Twitch Streamers Boycotting Against Hate Raid Get More Views

Alice J. Jang and Sumin Lim

R&R at *Information Systems Research*

Working Papers

Exploring Emotional Contagion in Live Streaming Chatrooms Through Network Ties

Xuan Lu and Alice J. Jang

Ready to submit to *Proceedings of the National Academy of Sciences*

Unveiling the Impact of Generative AI on Language Learning: A Field Experiment

Gyeombi Cheon, Yumin Choi, Alice J. Jang, Dongwon Lee, and Jiye Baek

Ready to submit to *Journal of the Association for Information Systems*

The Effect of Generative AI Use on Collaborative Problem Solving

Alice J. Jang, Maschio Fernando, Idris Adjerid, and Jui Ramaprasad

Experiments ongoing; target journal: *MIS Quarterly*

Does Working with Generative AI Influence Human Creativity and Divergent Thinking?

Alice J. Jang, Elizabeth Han, and Yuqing Ren

Experiments ongoing; target journal: *MIS Quarterly*

Invisible Strings: How Dark Patterns Shape Privacy Choices

Maschio Fernando, Idris Adjerid, and Alice J. Jang

Experiments ongoing; target journal: *CHI*

Privacy Versus Persuasion: The Consequences of Large Language Model Design

Maschio Fernando, Idris Adjerid, and Alice J. Jang

Study design ongoing; target journal: *Information Systems Research*

Seamless or Disjoint? The Interrelationship Between Ride-Hailing and Bike-Sharing

Yumin Choi, Alice J. Jang, and Jiye Baek

Data analysis ongoing; target journal: *Information Systems Research*

AI Agents – The Power of Delegation in Socially Awkward Team Situations

Jason Deane, Maschio Fernando, Idris Adjerid, and Alice J. Jang

Study design ongoing; target journal: *TBD*

Teaching Experience

Fall 2022–2025 **Advanced Modeling for Business Analytics, Instructor**

Fall 2024–2025 **Advanced Business Analytics in Python and R, Instructor**

Conference Presentations

2025 **The Effect of Use of Generative AI on Collaborative Problem Solving**
Collective Intelligence 2025

2025 **The Effect of Social Movement: Twitch Streamers Boycotting Against Hate Raid Get More Views**
Platform Strategy 2025

- 2025 **The Effect of Use of Generative AI on Collaborative Problem Solving**
VRSS 2025
- 2024 **Unveiling the Impact of Generative AI on Language Learning: A Field Experiment**
ICIS 2024, KrAIS 2024
- 2024 **The Effect of Social Movement: Twitch Streamers Boycotting Against Hate Raid Get More Views**
KrAIS 2024
- 2024 **Exploring Emotional Contagion in Live Streaming Chatrooms Through Network Ties**
INFORMS 2024
- 2023 **Execution of large-scale and complex digital experiments**
AoM 2023
- 2022 **MBD Contagion: Preferential Sharing of Rare Event Category in Social Networks**
INFORMS 2022

--- Seminars

- 2024 **Assessing Discussion Posts Written with the Help of Generative AI**
TLOS, Virginia Tech

--- Grants

- 2024 **ICAT mini SEAD grant (total: \$6,000)**
The Center for Human-Computer Interaction (CHCI) at Virginia Tech
- 2024 **CHCI planning grant (total: \$25,000)**
The Center for Human-Computer Interaction (CHCI) at Virginia Tech
- 2019 **Questrom research fund (total: \$5,424)**
Questrom School of Business
Funding Frequency-Biased Diffusion: Disproportionate Reception of Rare Categories of Events in Social Networks

--- Awards

- 2024 **Nominated for Advising Award**
Academic Advising Initiatives at Virginia Tech
- 2019 **Best Paper Award Runner-up**
Workshop of Information Systems and Economics 2019
- 2016 **Best Paper Award**
National Research Foundation of Korea
- 2014 **KAIST Scholarship**
Korean Advanced Institute of Science and Technology (KAIST)
- 2009 **Samsung Scholarship**

Samsung

Service

Journal Reviewer: *Organization Science, Information Systems Research, MIS Quarterly, Management Science, Service Science*

Conference Reviewer: ICIS, ECIS, HICSS, PACIS, CIST

Associate Editor: ICIS

Session Chair: INFORMS, KrAIS

Panelist: Academy of Management

Departmental Service: DEIB Committee, Business Information Technology, Virginia Tech
